

NLM-1 Training Materials

Overview

This folder contains all training materials for **NLM-1: AI-Powered Meeting Minutes with NotebookLM**, a supplemental session recommended for all PSHS-MC administrative units. This session empowers staff—especially office secretaries—to dramatically reduce the time spent transcribing and writing meeting minutes by leveraging Google's free AI tool, NotebookLM.

Session Information

Field	Value
Session ID	NLM-1
Session Title	AI-Powered Meeting Minutes with NotebookLM
Duration	1 hour (60 minutes)
Prerequisites	Session 0 (Google Workspace Fundamentals)
Primary Tool	Google NotebookLM (notebooklm.google.com)
Supporting Tools	Phone voice recorder app, Google Docs
Manual Reference	N/A (General productivity best practice)
Target Audience	All PSHS-MC staff (especially office secretaries)

Files Included

1. Trainer Guide ([NLM-1_trainer-guide.md](#))

Complete trainer script with:

- Session metadata and learning objectives
- Time allocation breakdown (60 minutes)
- Opening Q&A with anticipated questions
- Introduction to NotebookLM and its benefits
- Recording Meeting Audio on Your Phone (8 minutes) - Best practices for clear audio
- Uploading Audio to NotebookLM (8 minutes) - Creating notebooks and adding sources
- Generating Summaries and Notes (10 minutes) - Using NotebookLM's built-in features
- Prompting for Meeting Minutes (10 minutes) - Extracting action items, decisions, discussion points
- Refining Output into Google Docs (6 minutes) - Copy-paste, formatting, formal minutes template
- Audience Practice: Guided exercise with sample audio
- Contest Activity: Independent challenge
- Answer key and scoring rubric
- Troubleshooting tips
- Privacy and ethical considerations
- Pre-training setup recommendations

- Video production tips
- Follow-up support suggestions

2. Video Script ([NLM-1_video-script.md](#))

10-15 minute pre-session video script with:

- Opening analogy (stenographer vs AI assistant)
- Keywords and concepts explanation (NotebookLM, audio source, AI summary, prompt, action items, decisions)
- Pattern demonstration with screen recording cues:
 - Introduction to NotebookLM (1.5 minutes)
 - Recording Meeting Audio on Your Phone (2 minutes)
 - Uploading Audio to NotebookLM (2 minutes)
 - Generating Summaries and Extracting Notes (2.5 minutes)
 - Prompting for Meeting Minutes (2 minutes)
 - Refining Output into Google Docs (1.5 minutes)
- Quick check question
- Production notes for video recording

3. Hands-On Exercise ([NLM-1_exercise.md](#))

Guided exercise with:

- Exercise scenario (you recorded a staff meeting on your phone)
- 4 step-by-step tasks:
 - Part 1: Upload the sample audio to NotebookLM
 - Part 2: Generate a summary and review key topics
 - Part 3: Use prompts to extract action items and decisions
 - Part 4: Create formal meeting minutes in Google Docs
- Self-check answers
- Challenge variations (basic, intermediate, advanced)
- Troubleshooting guide
- Audio recording best practices reminder
- Privacy checklist

4. Quick Reference Card ([NLM-1_quick-ref-card.md](#))

Front-and-back reference card with:

- **Side A:** Step-by-step guides for:
 - Recording meeting audio on your phone
 - Uploading audio to NotebookLM
 - Generating a meeting summary
 - Prompting for action items and decisions
 - Formatting minutes in Google Docs
 - Complete workflow from recording to issuing minutes
- **Side B:** Reference material including:
 - Sample prompt library for meeting minutes

- Audio recording best practices
- PSHS meeting minutes format template
- Privacy reminders and ethical considerations
- Common mistakes and solutions
- NotebookLM limitations
- Where to find help
- Tips for success

5. Template Sheet (NLM-1_template.csv)

Pre-built CSV template for meeting minutes that can be imported into Google Sheets:

- Meeting metadata columns: Meeting Title, Date, Time, Location, Chairperson, Attendees
- Minutes content columns: Agenda Item, Discussion Summary, Decision, Action Item, Responsible Person, Deadline
- Pre-populated with example rows
- 50 empty rows for data entry

How to use the template:

1. Download [NLM-1_template.csv](#)
2. Import into Google Sheets or open in LibreOffice Calc
3. Fill in meeting metadata and content
4. Use as a reference for formatting formal minutes in Google Docs
5. Copy formatted content to Google Docs for final distribution

Why NotebookLM?

NotebookLM is a powerful tool for PSHS-MC staff, especially office secretaries, for several reasons:

1. **Dramatic Time Savings:** What once took hours of manual transcription and writing can now be done in minutes. NotebookLM processes audio and generates structured summaries automatically.
2. **Free and Accessible:** NotebookLM is completely free and part of the Google ecosystem. It works with your existing Google account—no new subscriptions or licenses needed.
3. **Audio-Native Design:** Unlike other AI tools that require transcription first, NotebookLM accepts audio files directly and processes them with context awareness.
4. **Citable Responses:** NotebookLM provides citations that link back to specific points in the audio source, making it easy to verify information and add context to minutes.
5. **Privacy-Respecting:** NotebookLM does not use your data to train AI models. Your meeting recordings stay within your Google account and are not shared externally.
6. **No Complex Prompt Engineering:** For basic meeting minutes, NotebookLM's built-in features (Summary, Key Topics, Audio Overview) work out of the box. Simple prompts can extract action items and decisions without technical expertise.
7. **Aligned with PSHS Google Workspace:** Since PSHS already uses Google Workspace, NotebookLM integrates seamlessly with existing tools like Google Docs and Google Drive.

Target Audience

While this training is recommended for **all PSHS-MC staff**, it is especially valuable for:

- **Office Secretaries:** The primary beneficiaries, as they are typically responsible for documenting and issuing meeting minutes.
- **Unit Heads:** Who need to quickly review meeting outcomes and track action items.
- **Committee Members:** Who want to ensure their contributions and decisions are accurately captured.
- **Administrative Staff:** Who attend regular meetings and need to document proceedings efficiently.

Privacy and Ethical Considerations

This training emphasizes responsible use of AI for meeting documentation:

1. **Authorization:** Only record meetings where you have explicit authorization to do so.
2. **Informed Consent:** Inform all participants that the meeting is being recorded for the purpose of generating minutes.
3. **Data Handling:** NotebookLM data stays within your Google account. Delete audio sources after minutes are finalized.
4. **Confidential Meetings:** Do not upload recordings of confidential HR matters, legal proceedings, or sensitive discussions without proper clearance.
5. **Verification:** Always review and verify AI-generated content before issuing official minutes. The AI is a tool, not a replacement for human judgment.

Prerequisites for Participants

- **Google Account:** Required for NotebookLM access (covered in Session 0)
- **Smartphone:** With a voice recorder app (most phones have one built-in)
- **Computer:** With internet access and a web browser
- **Basic Google Docs Skills:** Covered in Session 0

Training Workflow

1. Record Meeting on Phone
↓
2. Transfer Audio to Computer
↓
3. Upload to NotebookLM
↓
4. Generate Summary & Key Topics
↓
5. Prompt for Action Items & Decisions
↓
6. Copy to Google Docs
↓
7. Format as Formal Minutes
↓
8. Issue to Stakeholders

Common Meeting Types at PSHS-MC

This training uses examples relevant to PSHS-MC meeting types:

- **Administrative Meetings:** Regular staff meetings, unit meetings, departmental meetings
- **Committee Meetings:** Curriculum committee, quality management committee, safety committee
- **Management Committee Meetings:** Executive-level discussions and decisions
- **Project Meetings:** Planning sessions, progress reviews, milestone meetings

Expected Outcomes

After completing NLM-1, participants will be able to:

- Reduce meeting minutes turnaround time from hours to minutes
- Produce more accurate and comprehensive meeting documentation
- Focus on facilitating meetings rather than frantic note-taking
- Ensure action items and decisions are clearly captured and tracked
- Build confidence in using AI tools for administrative tasks

Support and Follow-Up

After the training, participants can:

- Refer to the Quick Reference Card for step-by-step reminders
- Use the provided template for consistent meeting minutes formatting
- Contact ITU for technical issues with NotebookLM
- Share best practices and prompt examples with colleagues
- Request follow-up sessions for advanced prompting techniques

Notes for Trainers

- Prepare a sample audio file (3-5 minutes) for the exercise
- Pre-create a NotebookLM notebook for demonstration purposes
- Ensure all participants have access to Google accounts and smartphones
- Have backup audio files ready in case of technical issues
- Emphasize privacy and ethical considerations throughout the session
- Allow time for questions and hands-on practice
