

VERSION NO. 2	MANUAL TITLE FINANCE AND ADMINISTRATION	DOCUMENT NO. FAM 15.0
	DOCUMENT NAME INCIDENT COMMAND SYSTEM	REVISION NO. 1
		EFFECTIVITY DATE October 16, 2022
		PAGE NO. 1 of 12

1. OBJECTIVES

- 1.1. Provide guidance on the proper use of Incident Command System (ICS) as a tool to organize operations for a broad spectrum of disasters or emergencies from small to complex incidents, both natural and human-induced, that conform with the provisions of RA 10121 otherwise known as the *"Philippine Disaster Risk Reduction and Management Strategies."*
- 1.2. Aid the development of strategic and systematic approaches to manage consequences of disasters and reduce the organisation's vulnerabilities and risks to All-hazards.
- 1.3. To promulgate an updated, comprehensive and harmonized system of responding to emergency situations pursuant and in accordance to R.A. 10121 or the Philippine Disaster Risk Reduction Management Act.

2. SCOPE

This policy covers on-scene management of emergency response operations from disaster impact to the immediate emergency response phase of an incident, and may also be used either as a suppletory or supplemental tool in All-hazard incident / risk management planning.

3. DEFINITION OF TERMS

All-Hazards — any incident, natural or human induced, that warrants action to protect life, property, environment public health, or safety and minimize disruptions of government, social or economic activities.

Chain of Command — series of command, control, executive or management positions in hierarchical order of authority; an orderly line of authority within the ranks of the incident management positions.

Common Terminology — normally used words and phrases.

VERSION NO. 2	MANUAL TITLE FINANCE AND ADMINISTRATION	DOCUMENT NO. FAM 15.0
	DOCUMENT NAME INCIDENT COMMAND SYSTEM	REVISION NO. 1
		EFFECTIVITY DATE October 16, 2022
		PAGE NO. 2 of 12

Disaster — a serious disruption of the functioning of a community or a society involving widespread human, material, economic or environmental losses and impacts, which exceeds the ability of the affected community or society to cope using its own resources; an actual threat to public health and safety where the local government and the emergency services are unable to meet the immediate needs of the community; an event in which the local emergency management measures are insufficient to cope with a hazard, whether due to lack of time, capacity or resources, resulting in unacceptable levels of damage or number of casualties.

Disaster Response — the provision of emergency services and public assistance during or immediately after a disaster in order to save lives, reduce health impacts, ensure public safety and meet the basic subsistence needs of the people affected. Disaster response is predominantly focused on immediate and short term needs and is sometimes called “disaster relief.”

Base – the location at which primary Logistics functions for an incident are coordinated and administered. There is only one Base per incident. (Incident name or other designator will be added to the term Base). The Incident Command Post may be co-located with the Base.

Branch – the organizational level having functional or geographical responsibility for major aspects of incident operations. A branch is organizationally situated between the section and division or group in the Operations Section, and between the section and units in the Logistics Section. Branches are identified by the use of Roman numerals or by functional area.

Camp – a geographical site within the general incident area (separate from the Incident Base) that is equipped and staffed to provide sleeping, food, water, and sanitary services to incident personnel

Chain of Command – series of command, control, executive or management positions in hierarchical order of authority; an orderly line of authority within the ranks of the incident management organization

VERSION NO. 2	MANUAL TITLE FINANCE AND ADMINISTRATION	DOCUMENT NO. FAM 15.0

		PAGE NO. 3 of 12

Chief – the Incident Command System title for individuals responsible for management of functional Sections : Operations, Planning, Logistics, Finance/Administration and Intelligence/Investigations (if established as a separate Section)

Command – the act of directing, ordering, or controlling by virtue of explicit statutory, regulatory, or delegated authority

Common Terminology – normally used words and phrases. Avoids the use of different words/phrases for same concepts, for consistency purposes.

Community – consists of people, property, services, livelihoods and environment; a legally constituted administrative local government unit of a country, e.g. municipality or district.

Coordination - bringing together of organizations and elements to ensure effective counter disaster response. It is primarily concerned with the systematic acquisition and application of resources (organization, manpower and equipment) in accordance with the requirements imposed by the threat of impact of disaster.

Disaster - a serious disruption of the functioning of a community or a society involving widespread human, material, economic or environmental losses and impacts, which exceeds the ability of the affected community or society to cope using its own resources; an actual threat to public health and safety where the local government and the emergency services are unable to meet the immediate needs of the community; an event in which the local emergency management measures are insufficient to cope with a hazard, whether due to a lack of time, capacity or resources, resulting in unacceptable levels of damage or number of casualties.

Disaster Response - the provision of emergency services and public assistance during or immediately after a disaster in order to save lives, reduce health impacts, ensure public safety and meet the basic subsistence needs of the people affected. Disaster response

is predominantly focused on immediate and short-term needs and is sometimes called "disaster relief".

Emergency - unforeseen or sudden occurrence, especially danger, demanding immediate action; an actual threat to an individual's life or to public health and safety which needs immediate response.

Emergency Management - the organization and management of resources and responsibilities for addressing all aspects of emergencies, in particular, preparedness, response and initial recovery steps; a management process that is applied to deal with the actual or implied effects of hazards

Hazard - a dangerous phenomenon, substance, human activity or condition that may cause loss of life, injury or other health impacts, property damage, loss of livelihood or services, social and economic disruption, or environmental damage; any potential threat to public safety and/or public health; any phenomenon which has the potential to cause disruption or damage to people, their property, their services or their environment, i.e., their communities. The four classes of hazards are natural, technological, biological and societal hazards.

Incident - an occurrence or event, natural or human-induced, that requires an emergency response to protect life or property. Incidents can, for example, include major disasters, emergencies, terrorist attacks, terrorist threats, civil unrest, floods, hazardous materials spills, nuclear accidents, aircraft accidents, earthquakes, tropical storms, tsunamis, war-related disasters, public health and medical emergencies, and other occurrences requiring an emergency response.

Incident Action Plan (IAP) - an oral or written plan containing general objectives reflecting the overall strategy for managing an incident. It may include the identification of operational resources and assignments. It may also include attachments that provide direction and important information for management of the incident during one or more operational periods.

VERSION NO. 2	MANUAL TITLE FINANCE AND ADMINISTRATION	DOCUMENT NO. FAM 15.0
	DOCUMENT NAME INCIDENT COMMAND SYSTEM	REVISION NO. 1
		EFFECTIVITY DATE October 16, 2022
		PAGE NO. 5 of 12

Incident Command - responsible for overall management of the incident and consists of the Incident Commander, either single or unified command, and any assigned supporting staff

Incident Commander (IC) - the individual responsible for all incident activities, including the development of strategies and tactics and the ordering and the release of resources. The IC has overall authority and responsibility for conducting incident operations and is responsible for the management of all incident operations at the incident site.

Incident Command Post (ICP) - the field location where the primary functions are performed. The ICP may be co-located with the incident base or other incident facilities.

Incident Command System (ICS) - is a standardized, on-scene, all-hazard incident management concept; allows its users to adopt an integrated organizational structure to match the complexities and demands of single or multiple incidents without being hindered by jurisdictional boundaries. ICS is non-permanent organization and is activated only in response to disasters or emergencies.

Incident Management Team (IMT) - an Incident Commander and the appropriate Command and General Staff personnel assigned to the incident. They also serve as one of the response teams of the DRRMCs and other agencies concerned.

Incident Objectives - statements of guidance and direction needed to select appropriate strategy(ies) and the tactical direction of resources. Incident objectives are based on realistic expectations of what can be accomplished when all allocated resources have been effectively deployed. Incident objectives must be achievable and measurable, yet flexible enough to allow strategic and tactical alternatives.

Jurisdiction – a range or sphere of authority. Public agencies have jurisdiction at an incident related to their legal responsibilities and

VERSION NO. 2	MANUAL TITLE FINANCE AND ADMINISTRATION	DOCUMENT NO. FAM 15.0
	DOCUMENT NAME INCIDENT COMMAND SYSTEM	REVISION NO. 1
		EFFECTIVITY DATE October 16, 2022
		PAGE NO. 6 of 12

authority. Jurisdictional authority at an incident can be political or geographical (e.g. town, city) or functional (e.g. law enforcement, public health).

Liaison Officer - a member of the Command Staff responsible for coordinating with representatives from cooperating and assisting agencies or organizations.

Logistics Section - the section responsible for providing facilities, services, and material support for the incident.

4. POLICIES

4.1. The PSHS System shall:

- 4.1.1 Adopt a common operating procedure during incidence of emergencies and calamities thru the use of the Incident Command system.
- 4.1.2 Use common terminology and plain language in accordance with ICS standards and protocols when conveying information during a crisis or emergency.
- 4.1.3 Adhere to the basic principles and best practices of ICS and commits itself to providing the basic equipment, facilities and resources needed to effectively implement the ICS.
- 4.1.4 Designate a suitable Incident Command Post/ Office/ Base where primary functions of the IMT are performed.
- 4.1.5 Provide the Incident Commander with appropriate Command and General Staff, equipment, facilities and other resources necessary to effectively implement the ICS
- 4.1.6 Plan and implement programs and projects for disaster risk reduction and mitigation, including the development of an Early Warning System, spanning knowledge of hazards and vulnerabilities thru preparedness and capacity to respond.

VERSION NO. 2	MANUAL TITLE FINANCE AND ADMINISTRATION	DOCUMENT NO. FAM 15.0
	DOCUMENT NAME INCIDENT COMMAND SYSTEM	REVISION NO. 1
		EFFECTIVITY DATE October 16, 2022
		PAGE NO. 7 of 12

4.1.7 Undertake efforts to seek the necessary technical and capacity-building assistance from relevant agencies

4.1.8 Integrate disaster risk reduction and emergency response in activity planning

4.2. The Campus Director/ Executive Director shall appoint and designate in writing thru a Special Order an Incident Command Team, headed by an Incident Commander (IC) who will be primarily responsible for implementing and maintaining the ICS. The IC shall be provided with appropriate Command and General Staff to assist him/ her in the effective implementation of the ICS.

4.3 The PSHS System shall support the effective implementation of the ICS thru the provision of critical resources — e.g. personnel facilities, equipment and supply items — needed to support incident management activities.

4.4 In response to emergency situations, the PSHS System shall prioritize saving lives, ensuring safety of responders and others, protecting property and environment, and incident stabilization.

4.5. The Incident Management Team shall have the following functions, roles and responsibilities:

4.5.1. Implement the ICS

4.5.2. Develop, maintain, review and update the incident action plan based on the organization's ICS objectives, goals and priorities

4.5.3. Assume the five major activities in the ICS: Command, Operations, Planning, Logistics, and Finance/ Administration.

4.5.4. Serve as one of the response teams of the DRRMC and other agencies concerned.

4.5.5. Prepare and keep up-to-date the Incident Action Plan, Risk Reduction Strategies, and Emergency Response Plan

VERSION NO. 2	MANUAL TITLE FINANCE AND ADMINISTRATION	DOCUMENT NO. FAM 15.0
	DOCUMENT NAME INCIDENT COMMAND SYSTEM	REVISION NO. 1
		EFFECTIVITY DATE October 16, 2022
		PAGE NO. 8 of 12

4.6. PSHS shall publish the name and contact details of the designated Point of Contact (POC) at the PSHS website and in a strategically conspicuous place. The POC's information shall be kept current and all changes thereto shall be properly documented.

4.7. During emergency situations, the Incident Commander (IC) is expected to assume the following roles:

- 4.7.1. Act as the Point of Contact (POC) during emergency situations.
- 4.7.2. Assume an effective, visible command position
- 4.7.3. Rapidly assess or size-up the situation and identify priorities based on the on-scene analysis of the emergency situation.
- 4.7.4. Assign or request for units/ personnel, equipment, external support and resources appropriate for the incident
- 4.7.5. Review and evaluate efforts and revise the incident plan as needed
- 4.7.6. Monitor, coordinate and direct response efforts.

5. PROCEDURES

5.1 Emergency Response on suicide attempt to jump off a building

- 5.1.1. The first personnel who responds to the scene shall be the Incident Commander (IC).
- 5.1.2. The IC shall initially engage with the person attempting to commit suicide.
- 5.1.3. The IC calls for help (preferably those others in the scene) to call all the concerned section chiefs in the IMT to meet at the ground floor of the scene.

VERSION NO. 2	MANUAL TITLE FINANCE AND ADMINISTRATION	DOCUMENT NO. FAM 15.0
	DOCUMENT NAME INCIDENT COMMAND SYSTEM	REVISION NO. 1
		EFFECTIVITY DATE October 16, 2022
		PAGE NO. 9 of 12

- 5.1.4. The IC instructs Negotiation Officer (adviser/Guidance Counselor) to convince the child/personnel not to proceed with his/her plans.
- 5.1.5. The IC instructs Operations Chief to secure the child's safety while negotiation is going-on.
- 5.1.6. The Operations Chief shall deploy a team of 3 to the top floor of the building to secure the child's safety while there is negotiation.
- 5.1.7. The Operations Chief instructs security guards to control the crowd/students in the scene. Special instruction will be given to the crowd not to take videos/pictures during the incident.
- 5.1.8. The Logistics team sources out mattress from the dormitory and/or available nets/catcher.
- 5.1.9. The Planning Officer Chief determines where to place the mattress should the child proceed with the attempt.
- 5.1.10. The Liaison Officer calls the parents and informs them of the incident. He also calls the nearest hospital for assistance.
- 5.1.11. After the resolution of the incident, the Guidance Counselors/Advisers conduct debriefing to the student who attempted suicide, the witnesses, personnel and staff.
- 5.1.12. The IC conducts closing meeting with the IMT for evaluation and assessment of the incident.

5.2 Emergency Response on Fire Incident

- 5.2.1 The first responder will size up the situation. If the fire is dire (could not be managed single handedly) "call for help" and "activate the alarm system".

VERSION NO. 2	MANUAL TITLE FINANCE AND ADMINISTRATION	DOCUMENT NO. FAM 15.0
	DOCUMENT NAME INCIDENT COMMAND SYSTEM	REVISION NO. 1
		EFFECTIVITY DATE October 16, 2022
		PAGE NO. 10 of 12

5.2.2 The security guard will contact the number of the nearest fire station and shall assist the fire unit to the exact location of the incident upon the arrival of the external responder.

5.2.3 Immediately, the subject teachers (on site) will facilitate the evacuation plan.

- a) Direct the students to the nearest safe exit;
- b) Check that no one is left inside the classroom;
- c) Close the door when assured that everyone is out;
- d) Guide the students to the identified evacuation site; and
- e) Immediately do a head count upon reaching the evacuation site with the assistance of the class president/officer;
- f) If a student is missing, the subject teacher will verbally notify the Search and Rescue Unit (of the school) to check on the whereabouts of the missing student/s;
- g) Immediately, the latter shall execute search and rescue and provide feedback to the subject teachers (who reported the missing student) and Incident Commander on the whereabouts of the search and rescue;
- h) Simultaneously Safety Marshals who shall assist in executing the evacuation procedure will be deployed per building (ideally a marshal per floor). The Safety Marshals shall ensure crowd control, facilitate smooth traffic flow and keep everyone to remain calm and orderly.

5.2.4 Simultaneously, the assigned Fire Marshal Unit (composed of non-teaching staff) will lead in putting out the fire while the external help have not arrived.

- a) If the fire is dreadful, the Fire Marshal Unit Head will declare a “retreat” and shall terminate the operation. This will be done if the situation goes worse and posts threat to the lives of the responders.
- b) In the aforementioned case, the Incident Management Team/ERT will just wait for the external responder to arrive and the Incident Commander will execute proper transfer of command upon the arrival of the external responder.

VERSION NO. 2	MANUAL TITLE FINANCE AND ADMINISTRATION	DOCUMENT NO. FAM 15.0
	DOCUMENT NAME INCIDENT COMMAND SYSTEM	REVISION NO. 1
		EFFECTIVITY DATE October 16, 2022
		PAGE NO. 11 of 12

5.2.5 The Fire Marshal Unit Head will then provide the Incident Commander with a feedback on the status of the incident as basis for the declaration of a “fire out”.

5.2.6 The Safety Marshals and Safety Officer shall proceed in doing a post incident assessment (infrastructure integrity and other hazards) to ensure that it is safe to go back to the buildings.

5.2.7 A close out meeting with the Incident Management Team will be called by the Incident Commander which will be participated by the Safety Marshals, Fire Marshals, Security Guards, PIO,

5.2.8 Safety Officer and the First Responder to do assessment and evaluation.

a) This close out meeting will be documented by the Public Information Officer. A copy of the report will be furnished to the Office of the Campus Director and the Incident Commander. The PIO is also in charge in answering questions and queries with the permission of the Responsible Officer (Campus Director).

5.2.9 Only after the close out meeting the Safety Officer upon the go signal of the Incident Commander, the community will be advised to resume their activities and declare safe to occupy the building.
