	DOCUMENT NAME CLIMATE CHANGE ADAPTATION AND MITIGATION – DISASTER RISK REDUCTION AND MANAGEMENT (CCAM-DRRM)	REVISION NO. 2
		EFFECTIVITY DATE October 20, 2025
		PAGE NO. 1 of 10

1.0 OBJECTIVES

This manual aims to institutionalize a proactive and resilient approach to disaster risk reduction and climate change adaptation and mitigation across the Philippine Science High School System (PSHSS) by:

- 1.1 To provide relevant information on disaster risks and means of protection.
- 1.2 To promote hazard/disaster awareness, to manage impacts, and to help the PSHSS community to reduce the risk of threats from natural and human-made/induced disasters.
- 1.3 To prepare the PSHSS administrators, faculty, staff and students in case of on-campus/office emergency or exigency.
- 1.4 To institutionalize climate-responsive planning, budgeting, and implementation across the Philippine Science High School System.
- 1.5 To ensure system compliance with the requirements of the Climate Change Commission (CCC), Department of Budget and Management (DBM), and the Commission on Audit (COA).
- 1.6 To promote climate change awareness and strengthen organizational resilience through climate-adaptive programs and projects.

2.0 SCOPE

This manual provides a comprehensive framework for integrating Climate Change Adaptation and Mitigation (CCAM) and Disaster Risk Reduction and Management (DRRM) into institutional planning, operations and decision-making processes.

The DRRM applies to handling of the standard emergency procedures of PSHSS. This is to ensure that the community is well informed on disaster risks and means of protection:

- In Case of Fire
- In Case of an Earthquake
- In Case of Pandemic or health-related risks

VERSION NO. 2	MANUAL TITLE FINANCE AND ADMINISTRATION MANUAL	DOCUMENT NO. FAM 7.1
	DOCUMENT NAME CLIMATE CHANGE ADAPTATION AND MITIGATION – DISASTER RISK REDUCTION AND MANAGEMENT (CCAM-DRRM)	REVISION NO. 2
		EFFECTIVITY DATE October 20, 2025
		PAGE NO. 2 of 10

This also delineates the role and responsibilities of the School Emergency Response Team during actual evacuation and evacuation drills.

Moreover, the Climate Change procedures apply to the PSHSS, covering planning, budgeting, implementation, monitoring, and reporting of climate change programs, activities and projects (PAPs), consistent with ISO 9001:2015 / AMD 1: 2024 standards and national guidelines.

3.0 POLICIES

- 3.1 To ensure preparedness and capability of the PSHSS community to respond to any emergency and/or disaster, the PSHSS shall create an Incident Management Team or Emergency Response Team with five (5) sub-teams to:
 - a. Devise emergency plans
 - b. Conduct drills for emergency and disaster preparedness
 - c. Organize and mobilize emergency control action for rescue, evacuation and relief during emergency situations or disasters
 - d. Plan and implement pandemic or health- related actions
- 3.2 The five (5) sub-teams pertain to First Aid, Evacuation, Fire and Site Security/Search and Rescue, Communications and Maintenance.
- 3.3 Announced fire and earthquake drills shall be conducted twice during the school year. Unannounced drills shall also be conducted anytime.
- 3.4 Evacuation Plan shall be posted at strategic areas.
- 3.5 The Earthquake Survival Kit and First Aid Kit
 - 3.5.1 Each student shall keep and maintain an Earthquake Survival Kit bag consisting of the following items:
 - a small battery-operated radio,
 - flashlight,
 - bottled water,
 - ready to eat food (candies and biscuits),
 - dust mask, and
 - a First Aid Kit.

VERSION NO. 2	MANUAL TITLE FINANCE AND ADMINISTRATION MANUAL	DOCUMENT NO. FAM 7.1
	DOCUMENT NAME CLIMATE CHANGE ADAPTATION AND MITIGATION – DISASTER RISK REDUCTION AND MANAGEMENT (CCAM-DRRM)	REVISION NO. 2
		EFFECTIVITY DATE October 20, 2025
		PAGE NO. 3 of 10

3.5.2 The First Aid Kit shall consist of:

- alcohol,
- burn ointment,
- plaster,
- band-aide,
- cotton balls,
- medicine (paracetamol, loperamide, antacid, etc.)
- face mask.

3.6 Earthquake One Point Lesson (OPL)

3.6.1 The conduct of an earthquake drill is different from that of a fire drill.

3.6.2 Fire Drill – The sound of a siren/bell means that a fire is ongoing and all occupants of the building are to immediately evacuate to ensure their safety.

3.6.3 Earthquake Drill – The sound of a siren/bell indicates that a strong shaking is ongoing and the level of ground shaking prevents people to stand and move around.

3.6.3.●.1 Participants during the 1-minute siren/bell should perform the DUCK, COVER AND HOLD response.

3.6.3.●.2 After the 1-minute siren/bell, participants quietly go out of room and proceed to the designated evacuation area.

3.7 Health- related response plans shall be set in place to address emergencies relative to occurrence of a pandemic, chemical spill, etc. in the workplace.

3.8 The organization must integrate climate change actions into their annual plans and budgets following the CCC's Climate Change Expenditure Tagging (CCET) guidelines.

3.9 Climate change initiatives must undergo quality assurance review and receive formal approval before inclusion in the Annual Climate Change Plan.

VERSION NO. 2	MANUAL TITLE FINANCE AND ADMINISTRATION MANUAL	DOCUMENT NO. FAM 7.1
	DOCUMENT NAME CLIMATE CHANGE ADAPTATION AND MITIGATION – DISASTER RISK REDUCTION AND MANAGEMENT (CCAM-DRRM)	REVISION NO. 2
		EFFECTIVITY DATE October 20, 2025
		PAGE NO. 4 of 10

- 3.10 Only initiatives included in the Approved Quality Assurance Review (QAR) can be implemented and reported.
- 3.11 The Planning Office shall serve as the lead office in coordinating climate change actions and reporting.
- 3.12 Climate-related reporting must comply with the requirements of the COA, DBM, and CCC.

4.0 PROCEDURES

4.1 In Case of Fire

Responsibility	Activity
Faculty Members/ Class Officers	1. Perform the following functions: a. Switch off electrical or gas appliances in use. b. Direct their students to the nearest exit away from the fire to a safe place/evacuation site. c. Conduct an orderly but fast movement of students out of the fire scene. d. Advise their students to carry with them only their important belongings (if it is still possible). e. Allay the fear of students. f. Attend to the safety of their students in general. g. Account for all his/her students.
Employees	2. Observe safety procedure and perform emergency functions assigned to them such as switching off gas and electrical appliances.
Health Services Unit Personnel/First Aiders	3. Attend to those who are injured or have suffered other health-related problems.
Incident Management Team/ Emergency Response Team	4. Coordinates with the Fire Department and assesses the condition. 5. Prepares an Incident Report.

		PAGE NO. 5 of 10

4.2 In Case of an Earthquake

Responsibility	Activity
All	1. Stay calm.
Faculty/Staff	2. During the initial shock and tremors to instruct everyone to: - seek cover under heavy furniture such as tables, beds and couches (“DUCK, COVER AND HOLD”). - stay away from the beams and glass such as windows, doors, etc. 3. After the initial shock and tremors to order everyone to: - Carefully get out of the place where you sought cover. - Switch off gas and electrical appliances. - Calmly but quickly get out of the building and go to the oval (or open space) where you can keep a distance of about half the height of the tallest building. - Wait for further instruction from the Emergency Response Team. 4. If you are in an alley or street or between tall structures and walls: - Seek cover inside strong structures. - Be aware of falling electric posts and wires, falling glass and debris from building and sign boards. - Stay away from hanging objects that may fall - After the initial shock or tremors immediately go to open spaces where you can be at a distance of about half the height of the tallest building.
Health Services Unit Personnel/First Aiders	5. Attend to those who are injured or have suffered other health-related problems.

Incident Management
Team/ Emergency
Response Team

6. Assesses the condition of the buildings and coordinates with government agencies, if needed.

7. Prepares an Incident Report.

4.3 Evacuation Drills

Responsibility	Activity
Designated Emergency Response Team (ERT) Head	1. Devise emergency plans and organize and mobilize emergency control action for rescue, evacuation and relief during emergency situations or disaster.
Campus Director/Executive Director	2. Approves the emergency plans.
Emergency Response Team (ERT)	3. Conducts drill for emergency preparedness.

4.4 In Case of Pandemic/ Health-related Emergency

Responsibility	Activity
ExeCom IMT/ Emergency Response Team (ERT) Head	1. Make the school compliant with the minimum safety standards, and protocol for operating the office and school amidst the pandemic/ disaster
	2. Maintain service continuity when faced with disruptive events

- | | |
|---|--|
| | 3. Protect the student/ staff; especially those who are vulnerable |
| | 4. Approves, activates the emergency and/ or continuity operation plans |
| PSHS Campus' IMT/
Emergency Response
Team (ERT) | 5. Activate health and safety protocol in the office and campuses for all employees, students and stakeholders |
| Employees | 6. Observe health and safety protocols, including government issued guidelines and advisories |
| Execom/ ED/ CDs | 7. Monitor, assess the implementation and adaptation of health and safety protocols |
| | 8. Regular review and exercises of this plan, with stakeholders will improve the schools' resilience to any disruptive events while complying with the minimum health and safety standards issued by the DOST, DOH and LGUs. |
| IMT/ Emergency
Response Team (ERT) | 9. Prepare an Incident Report |

4.5 Climate Change Action

Responsibility	Activity
Executive Director / Campus Director	1. Identify Climate Change Programs, Activities and Projects (PAPs) with corresponding Budgetary Requirements for the following year.
Planning Officer	2. Prepare and accomplish the Quality Assurance Review (QAR), Budget Proposal (BP) Form 207

VERSION NO. 2	MANUAL TITLE FINANCE AND ADMINISTRATION MANUAL	DOCUMENT NO. FAM 7.1

		PAGE NO. 8 of 10

(CCET) and Annual Climate Change Plan for the ensuing year.

Executive Director / Campus Director	3. Review and endorse the QAR, BP 207 and Annual Climate Change Plan.
Planning Officer	4. Submit the completed QAR, BP 207 and Annual Climate Change Plan to OED Planning Office.
OED Planning Office	5. Review, consolidate and submit the QAR and BP 207 to the CCC and DBM.
Planning Officer	6. Upon receipt of the approved QAR from the CCC, review and update the Annual Climate Change Plan.
Executive Director / Campus Director	7. Approve the Annual Climate Change Plan.
Planning Officer	8. Submit to the Commission on Audit (COA) the CCC-approved QAR, Approval letter from the Climate Change Commission, BP Form 207, and the Approved Annual Climate Change Plan.
MANCOM	9. During the implementing fiscal year, oversee the implementation of the Annual Climate Change Plan.
Responsible Unit	10. Implement climate change PAPs as reflected in the approved plan.
Planning Officer	11. Monitor implementation, prepare and submit the Annual Climate Change Report to the Commission on Audit within fifteen (15) working days from January of the ensuing year.

REVISION HISTORY

DCR No.	Section	Amendment/s	Revision No.	Implementation Date
-	Complete re-write of Version 1	Original Issue and Initial Implementation	0	February 1, 2020
20-00-058	-	Insert new disaster risk in Section 2.0 Scope - "In Case of Pandemic" Insert "Incident Management Team" prior to Emergency Response Team in Section 3.1 under Policies, which is synonymous and/or function the same. Roles of the sub-teams can be acted by the IMT, staff and employees. Insert as additional sub-section 4.4 under Procedures - In Case of Pandemic	1	November 09, 2020
25-00-011	-	Added Revision History To include Climate Change Action into FAM 7.1 Changes in Document Name, Objectives, Scope, Policies and Procedures	2	October 20, 2025
