1.0 OBJECTIVES

- 1.1 To maintain a system in controlling all documented information related to the institution's Quality Management System (QMS).
- 1.2 To ensure that all documented information relevant to the QMS are updated, maintained, stored, and dispose of based on the retention requirements of the National Archives of the Philippines.
- 1.3 To ensure that all QMS-related documented information are reviewed for adequacy and the latest revisions are available at all points of use.

2.0 SCOPE

This procedure applies to all QMS-related documented information within the defined documentation structure of the institution's QMS. The following shall be classified as controlled documented information, whether in the form of hard copies or electronic versions:

- Quality Manual (QM);
- Curriculum and Instruction Manual (CIM);
- Student Affairs Manual (SAM);
- Student Services Manual (SSM);
- Finance and Administration Manual (FAM);
- System Office Services Manual (SOM)
- Job Descriptions Manual (JDM) – for internal use only by each campus/office;
- PSHSS forms;
- Where applicable, Reference Documented information (i.e. external origin); and
- Records.

3.0 POLICIES

- 3.1 All QMS-related documented information shall be controlled and maintained by the Quality Management Representative (QMR) thru the Document Controller. Responsibilities shall be to:
 - Ensure that QMS-related documented information (manuals/forms/List of References/Filing Chart) are properly prepared and approved before release;

	DOCUMENT NAME CONTROL OF DOCUMENTED INFORMATION	REVISION NO. 3
		EFFECTIVITY DATE June 23, 2024
		PAGE NO. 2 of 23

- Control and monitor revisions of all QMS-related documented information (manuals and forms) and ensure that only pertinent issues are used;
- Maintenance of master (PSHS System)/controlled (Campuses) copies of all QMS-related documented information (manuals and forms); and
- Retrieval and disposition of obsolete/superseded controlled documents shall be the responsibility of respective Document Controllers of campuses/offices.

3.2 The Document Controller of the PSHS System shall be responsible for the issuance of controlled copy of the manuals to offices/campuses.

3.3 All newly released documented information shall be effective ten (10) calendar days after issuance.

3.4 All QMS forms may be accomplished using an editable (MS Excel or MS Word format), fillable PDF, or manually printed form. The mandatory information in the form shall not be modified or deleted, such as the title, column and row headings, designation of signatories, footnotes, form ID code, etc.

3.5 The Document Controller and process owner shall be responsible for checking and monitoring the compliance to provision 3.4.

3.6 Documented Information Format

Manuals/Procedures

3.6.1 Each procedure in the manuals shall be composed of at least the objectives, scope, policies, procedures and list of forms and reports.

3.6.2 All manuals shall follow the standard format containing the following:

- Institution's Logo,
- Manual Title,
- Document Name,
- Document No.,
- Version No.,
- Revision No.,
- Effectivity Date,
- Page No.,

VERSION NO. 2	MANUAL TITLE QUALITY MANUAL	DOCUMENT NO. QM 13.1

- Prepared by, at the last page of the manual,
- Reviewed by, at the last page of the manual,
- Approved by, at the last page of the manual,
- Master Copy Stamp Box,
- Controlled Copy Stamp Box (for duplicate copies), and
- Statement at the footer "© 2020 Philippine Science High School System; all rights reserved. This document may contain proprietary information and may only be released to third parties with approval of management. Document is uncontrolled unless otherwise marked; uncontrolled documents are not subject to update notification."

3.6.3 All procedures in the manuals shall be identified in the QMS by a document number. The document number shall consist of letters representing the manual followed by a number series. The document number shall follow this pattern:

ABC X.X

Where:

- ABC – QM for Quality Manual,
CIM for Curriculum and Instruction Manual,
SAM for Student Affairs Manual,
SSM for Student Services Manual,
FAM for Finance and Administration Manual,
SOM for System Office Services Manual (OED), and
JDM for Job Descriptions Manual
- X.X – number assigned to the document

3.6.4 Revised or amended procedures shall have the same document number, unless the system documentation is to be restructured.

3.6.5 The initial issue of procedures shall bear revision 0. A revision shall be issued to reflect changes in a particular procedure of a manual. Succeeding amendments to the procedure shall then be numbered as revision 1, 2, 3 and so on.

3.6.6 The initial issue of manuals shall bear version 1. A new version shall be issued when there are major changes in the manual as change of standard version or change of signatories. Succeeding issues shall be numbered as version 2, 3, 4 and so on. The EXECOM shall decide when a new version of the manual shall be issued.

Forms

3.6.7 Forms used by the Institution shall have an assigned Form Number and corresponding effectivity date. The numbering scheme shall be as follows to be placed at the bottom left of the form:

PSHS-NN-F-XXX-YY-Ver##-Rev#-MM/DD/YY

Where: PSHS – refers to Philippine Science High School
 NN – origin of Form,
 F – referring to Form,
 XXX – three characters referring to the area/office,
 YY – two-digit assigned form number,
 Ver## – version number,
 Rev# – revision number, and
 MM/DD/YY – date of issue/effectivity date

3.7.6 There shall be no repetition of form codes.

3.7.7 A copy of the newly created or revised form shall be provided to the QMR thru the Document Controller for proper updating of the compiled forms.

3.7.8 The QMR thru the Document Controller shall also maintain back-up copies of electronic files of the latest revision of all forms.

3.7.9 In cases where there are campus-created forms which are in redundancy and/or conflict with system-created forms, the former shall be discarded by the QMR thru the Document Controller upon receipt of the forms issued by the PSHSS Document Controller. The new forms shall be immediately used.

3.8 Documented Information Approval and Issuance

System Level

3.8.1 The DCR for new and/or revised manuals and forms, used by the System, must be submitted to the System QMSO, for approval by the Executive Director.

3.8.2 Upon receipt of the DCR, the System QMSO shall conduct an initial review of the submitted DCR, record the creation and proposed changes in the Document Change Request Register (DCRR) thru the System Document Controller. Once the DCR is approved, the System Document Controller shall distribute the new and/or revised manuals and forms to the Campus QMSO.

Campus Level

3.8.3 The DCR for new and/or revised Campus-issued forms shall be reviewed by the concerned Division Chief, forward to the Campus QMR for review and comments, before submission to the Campus Director for a recommending approval.

3.8.4 Once the DCR is signed by the Campus Director, the DCR shall be endorsed by the Campus QMSO to the System QMSO for approval by the Executive Director.

3.9 Documented Information Control and Distribution

Manuals and Procedures

3.9.1 The manuals/procedures shall be made available to all personnel concerned. The safekeeping of the controlled copies of the manuals/procedures shall be the responsibility of the QMR thru the Document Controller.

3.9.2 All manuals shall have a corresponding table of contents stating document number, document name, initial issue date, revision date and revision number.

3.9.3 The Document Approval and Distribution Matrix shall serve as the Master List of manuals/procedures. The PSHSS Document Controller shall be responsible for providing updated copies of the matrix to the campus Document Controllers.

3.9.4 The copies of manuals shall be controlled through the following:

- Master Copy shall be defined as the copy with the latest revision and basis for all controlled copies. It shall be properly identified or labeled in blue ink as valid or official.
- Controlled Copy shall be reproduced depending on the number of copies needed. These shall also be properly identified in blue ink as controlled copies.

3.9.5 The person/s involved in the preparation and review of the manual shall sign in the designated boxes in the Master Copy to indicate that the manual is the official copy. The Approving Authorities concerned shall likewise sign in the designated box to indicate their approval.

3.9.6 Any changes in the manuals/procedures shall be made by the PSHS System QMR thru the Document Controller upon approval of the DCR by authorities.

- 3.9.7 Approved copy of the newly created or revised manuals/procedures shall be provided to the PSHS System QMR thru the Document Controller, which will serve as a master copy for proper updating of all controlled copies.
- 3.9.8 Master copies of all manuals/procedures shall be maintained and kept by the PSHS System QMR thru the Document Controller.
- 3.9.9 The PSHS System QMR thru the Document Controller shall ensure that all controlled copies have been received by the Campus Director/authorized representative.
- 3.9.10 The PSHS System QMR thru the Document Controller shall also maintain back-up copies of electronic files of the latest revision of all manuals. The file-naming scheme to be used to label the back-up copies shall be the document name and the back-up date.
- 3.9.11 The PSHS System QMR thru the Document Controller shall be responsible for updating all controlled copies of campuses for any changes.
- 3.9.12 Before distribution of documented information, the PSHS System QMR thru the Document Controller shall check the following:
- Clarity of prints,
 - Completeness of pages,
 - Latest revision code,
 - Document control number,
 - Signatures of approving parties,
 - Format, and
 - Distribution list.
- 3.9.13 A Document Control Log (DCL) of controlled copies of documented information shall be maintained by the PSHS System QMR thru the Document Controller to ensure effective control of the circulation and to provide traceability in updating issued manual/procedure. The DCL shall contain the following:

- Title of Manual,
- Copy Number,
- Document Number,
- Previous Version/Revision No.,
- New Version/Revision No.,
- Recipient,
- Date Issued,
- Signature of Recipient,
- Date Retrieved, and
- Signature of Issuer/Retriever.

3.9.14 The PSHS System QMR thru the Document Controller shall ensure that all controlled copies have been received by the campus representative.

3.9.15 The Campus QMR thru the respective Document Controller shall be responsible for ensuring that any changes are communicated to all units concerned and implemented accordingly. Uncontrolled copies shall be given upon request. Superseded documents shall be collected for safekeeping and for future reference by the Document Controller.

References (Documents of External Origin)

3.9.16 References are registered in the List of References to be prepared by the office concerned, as applicable. The list shall be approved by the head of the office concerned.

3.9.17 A new List of References shall be prepared if there are new references identified to be included. The original List of References need not be revised but a new List of References can be included as an addendum to the original list.

3.9.18 A copy of the approved List of References shall be submitted to the Document Controller.

3.9.19 References shall be controlled by stamping its cover or its first page in red ink as "controlled". The head of division concerned shall also affix his/her signature.

3.9.20 The physical copy of reference/s shall be kept, maintained and updated by the office concerned. Likewise, the obsolete/superseded reference must be kept by the same office concerned, or as specified in the Filing Chart.

Records

3.9.21 The Filing Chart containing the list of records shall be prepared by the office concerned indicating the date it was prepared and shall be approved by the division chief concerned.

3.9.22 Control and maintenance of records shall be the responsibility of each office concerned.

3.9.23 Each Head shall assign a person in charge to control and maintain records in the office.

3.9.24 Filing of records shall be done in a manner that allows easy retrieval as follows:

- Filing system shall be based on the Filing Chart.
- Records shall be indexed or labeled appropriately for easy identification.

3.9.25 Records shall be protected and kept in suitable environment to minimize damage or deterioration, loss of confidentiality, improper use, or loss of integrity, by using appropriate means – such as folders, envelopes, binders, among others; stored in cabinets, shelves, and drawers. Confidential records shall be kept under lock and key, and accessed only by authorized personnel.

3.9.26 Records shall also be preserved (including preservation of legibility), and maintained/retained (including protection from unintended alterations) by the following:

- Written legibly with permanent ink;
- Thermal paper should be photocopied;
- Used portion of the recycled paper should be marked/crossed out;

- Confidential documented information should not be used as recycled paper; and
- Corrections, if needed, should leave the original entry still readable; therefore, should be crossed-out using a single line and initialed by the person who made the correction

3.9.27 Each unit shall set the retention period of its records unless provided by the National Archives of the Philippines in the General Records Disposition Schedule. After the lapse of the retention period, the persons concerned shall seek approval from their respective heads, after which he/she shall remove the records and dispose of such records based on the disposal method indicated on the Filing Chart.

3.9.28 The Heads concerned shall review their records, whether to be classified as inactive or for disposal.

3.9.29 Relevant electronic copies of records shall be backed up accordingly.

3.9.30 Access to relevant electronic system/database, including controls, shall be defined.

Uncontrolled Copies

3.9.31 The Document Controller may provide uncontrolled document to individuals as deemed appropriate. These uncontrolled documented information, if issued, shall be reproduced from a "controlled copy" document such that the "controlled copy" stamp is not in ink, but only photocopied, and stamped "uncontrolled copy".

3.10 Monitoring of Document Change Requests (DCRs)

3.10.1 All DCRs received from requesting parties shall be logged by the Campus Document Controller in a Document Change Request Register containing the following:

- DCR No.,
- Date Received,
- Document No.,
- Requested By,

VERSION NO. 2	MANUAL TITLE QUALITY MANUAL	DOCUMENT NO. QM 13.1

- Action Taken, and
- Date Completed.

3.11 Obsolescence of Documented Information

3.11.1 Manuals/Procedures/Forms/References/Filing Chart shall be considered obsolete or superseded if it is no longer applicable to the QMS or if it is replaced by a new version/revision.

3.11.2 The Document Controller shall ensure that all superseded documented information are properly marked and removed from all points of use. The revised documented information shall be given to the person responsible when the superseded documented information is retrieved. The receiver shall sign in the DCL to properly record the retrieval and replacement of the superseded documented information (manual/procedure).

3.11.3 Obsolete documented information that are retained for reference purposes shall be properly marked as superseded. The Document Controller shall stamp all obsolete documented information as "SUPERSEDED, FOR REFERENCE PURPOSES ONLY".

3.11.4 Records of revision history (superseded master copies) of the manuals/procedures shall be kept by the Document Controller.

3.11.5 The Masterlist of Forms shall document the revision history of the forms.

3.11.6 The List of References shall document the retrieval of obsolete/superseded references.

3.11.7 The Filing Chart can be updated any time by the office concerned as long as the date it was prepared is indicated and approved by the Head of the office concerned.
