

VERSION NO. 2	MANUAL TITLE QUALITY MANUAL	DOCUMENT NO. QM 13.4
	DOCUMENT NAME CORRECTIVE ACTION	REVISION NO. 1
		EFFECTIVITY DATE June 23, 2024
		PAGE NO. 1 of 7

1.0 OBJECTIVES

- 1.1 To establish, record, and maintain documented information for the implementation of Correction and Corrective Action on nonconformities.
- 1.2 To maintain a system in:
- identifying, analyzing, and eliminating the root cause of the problem;
 - implementing actions to correct and prevent recurrence of the problem; and
 - ensuring nonoccurrence of the same problem to the other areas of the organization.

2.0 SCOPE

This procedure covers activities necessary in identifying, analyzing, and eliminating the root cause of the problem including implementation of appropriate Correction and Corrective Action on nonconformities related to:

- System nonconformities identified during Audits
- Customer feedback/complaint
- Problems identified by management
- Inefficiencies or weak controls identified by process owners.

3.0 POLICIES

- 3.1 With the assistance of the immediate head, the concerned employee/auditee shall assess the underlying cause of nonconformities related to the:
- Conduct of First Party Audit (Internal Quality Audit) as per QM 13.2
 - Conduct of Third Party Audit (External Audit) by the certifying body or government regulatory body
 - Customer Feedback as recorded and reported to the management by any employees
 - Other nonconformities encountered in the performance of the quality management system and procedures as reported by any employees and/or identified by the management
- 3.2 A Corrective Action Request (CAR) Form (CAR) be issued and accomplished by the concerned employee/auditee when conducting the

Root Cause Analysis (RCA) and implementing the Correction and Corrective Action to address the nonconformities. All employees whose work is affected by the implementation of the Correction and Corrective Action and/or whose work affects the products/services rendered shall be informed, re-oriented, and re-trained, if necessary.

3.3 The Quality Management Representative (QMR) and head of the concerned employee/auditee shall review and validate the effectiveness of the Correction and Corrective Action provided. They shall signify consensus to the effectiveness of the Correction and Corrective Action by affixing their signatures and closing the CAR, otherwise, the concerned employee/auditee shall revisit the Root Cause Analysis (RCA) previously conducted and resubmit the CAR.

3.4 Each accomplished CAR Form shall have unique Reference No. The format for the Reference No. in the CAR shall be:

XXX- ZZZZ, where:

- X : **A** for internal audit, **B** for external audit and other regulatory bodies, **C** for customer complaint, **D** for other nonconformities
- YY : Number in series for the year
- ZZZZ : Year

3.5 The QMSO shall be responsible for maintaining the CAR Status Log and ensuring that all CARs are properly closed.

3.5.1 The QMR and the Division Chief of the concerned Unit shall compel the concerned employee/auditee to work on the closure of CARs that are still open past the due date.

3.6 For nonconformities resulting from audits and customer feedback, the concerned employee/auditee shall submit the CAR to the auditor within 30 days upon validation of the nonconformities. The CAR shall indicate the target date of completion for the action to be taken in correcting the nonconformities and ensuring non-recurrence nor occurrence of the same problem to the other areas of the organization.

3.6.1 Failure by the auditee to submit the CAR within the 30-day period shall compel the auditor to issue another CAR to the auditee following the guidelines below:

3.6.1.1 The new CAR form shall have a different Reference No.

3.6.1.2 Under the "Description of Nonconformity/Complaint" of the new CAR, the auditor shall indicate the following: *"This CAR is issued due to failure by the auditee to submit the CAR with Reference No. ____ (indicate the Reference No. of the original CAR) within 30 days as required in the Quality Manual and Clause 10.2 of ISO 9001:2015 on Nonconformity and Corrective Action"*.

3.6.1.3 Upon receipt of the new CAR, the auditee shall conduct Root Cause Analysis (RCA) of the problem described in the original CAR and include action to be taken in addressing the delay of submission. The completed new CAR shall be submitted to the auditor within the timeframe specified in the preceding clause.

3.7 A regular follow-up with the auditee on the status and effectiveness of the Correction or Corrective Action shall be scheduled, conducted, and recorded by the auditors until closure of CARs.

3.7.1 If the Correction and Corrective Action remain ineffective after three (3) consecutive follow-ups, the auditors shall issue a new CAR and reflect the Reference No. of the old CAR in the new CAR.

3.7.1.1 The auditors shall invalidate the Root Cause Analysis conducted and presented in the old CAR and request the auditee/process owner to review and conduct a new Root Cause Analysis to address the nonconformities.

3.8 All CARs shall not be considered "CLOSED" if the action taken has not been effective in correcting the nonconformities and/or preventing recurrence.

3.9 If necessary, the organization shall make amendments to the documented information and conduct Risk and Opportunity Assessments including the updating of Forms, resulting from the implementation of Correction and Corrective Action.

3.10 The results of Correction and Corrective Action shall be reported and discussed during the Management Review.

4.0 PROCEDURES

Responsibility	Activity
Auditor, Head, Stakeholders, Management	1. Identify nonconformities in the Quality Management System.
Auditor and Head	2. Discuss nonconformities with Auditee/ Process Owner
Auditor	3. Documents nonconformities through CAR and provides copies of the CAR to the auditee/Process Owner
Auditee/Process Owner and Head	4. With the assistance of the immediate head, determine the cause/s of the nonconformities. Agree on and provide Correction to address the nonconformities and deal with the consequences
Process owner	5. If a Corrective Action is required, conduct Root Cause Analysis and identify action to be taken in addressing the nonconformities and preventing recurrence
Auditor	6. Agrees with the auditee/Process Owner/Head on the identified Correction and Corrective Action including the date of completion
	7. Provides copies of CAR to the Lead Auditor

- | | |
|-----------------------|--|
| Lead Auditor | 8. Updates the CAR Status Log |
| Auditee/Process Owner | 9. Implements identified Correction and Corrective Action |
| Auditor | 10. Monitors the implementation and status of the Correction and Corrective Action and review the effectiveness on the date upon which the action taken is due for completion. Record the results in "Follow-up" portion of the CAR. |
| | 11. Schedules another follow-up (maximum of 3 follow-ups) if the action taken is ineffective, otherwise, proceed to Step #12 |
| Auditee/Process Owner | 12. Once the Correction and Corrective Action have been validated by the auditors to be effective, checks where else within the system the problem could potentially occur and fan out implementation of the Correction and Corrective Action to the other areas in the organization |
| Auditor | 13. Updates the CAR with the actual date of completion of Correction or Corrective Action |
| | 14. Reviews and verifies if there is a need to update/amend documented information including Risk and Opportunity Assessments. If need be, requires the auditee/ process owner to update or do what is necessary, otherwise, proceed to Step #16. |
| Auditee/Process Owner | 15. Updates/amends the documented information and reassesses Risks and Opportunities, whatever is applicable |
| Auditor | 16. Forwards the CAR to the QMR and immediate head of the auditee/process owner for Closure |
