

VERSION NO. 2	MANUAL TITLE STUDENT SERVICES MANUAL	DOCUMENT NO. SSM 6.4
	DOCUMENT NAME STUDENT HEALTH INFORMATION	REVISION NO. 0
		EFFECTIVITY DATE FEBRUARY 1, 2020
		PAGE NO. 1 of 3

1.0 OBJECTIVES

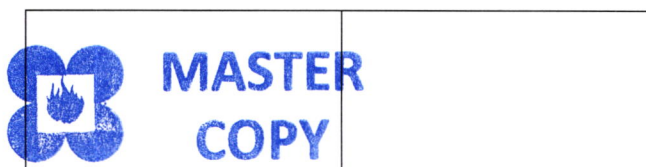

- 1.1 To ensure the confidentiality, integrity and availability of health information.
- 1.2 To provide complete reference pertaining to student health condition.

2.0 SCOPE

This covers the regular update and maintenance of student health records.

3.0 POLICIES

- 3.1 Student health records shall include the following but not limited to:
 - 3.1.1 Student health certification accomplished at the time of registration.
 - 3.1.2 History and physical examination data obtained during individual consultations.
 - 3.1.3 Physician's diagnoses, treatment orders, prescriptions, and correspondence with patient's parents/guardian/health care provider.
 - 3.1.4 Treatment records.
 - 3.1.5 Consent for administration of medication/procedure.
 - 3.1.6 Referral letters made to health specialists
 - 3.1.7 Individualized plan of management for each patient
- 3.2 Student health information shall refer to data pertaining to a student's/employee's/visitor's medical history, physical examination, laboratory results, and treatment plan which can be oral, written, or electronic.
- 3.3 Manner of Record Keeping
 - 3.3.1 Health records shall be placed in the record files. These records shall be treated with strict confidentiality. Health records shall be

kept for ten (10) years after the last visit of the patient. After which, health records may be shredded.

3.3.2 Health records shall be reviewed and updated regularly by the Nurse to identify and follow up on significant health concerns.

3.4 Confidentiality of Health Records

3.4.1 The Health Services Unit (HSU) has the responsibility of collecting and maintaining customer health records and the protection of the privacy rights of clients.

3.4.2 Client health records are considered as private data. Hence, these are accessible only to the clients who is the subject of the data and/or the parents or legal guardian of students.

3.5 Disclosure of Student Information

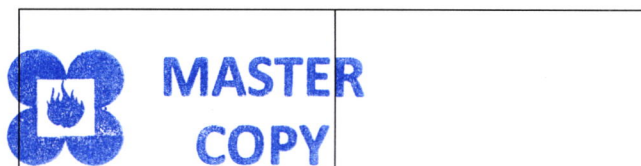

3.5.1 The school administrators, Physician, and Nurse are bound by ethical and legal principles regarding the release of confidential health information. Students and their families have a right to expect that student health information will be treated with strict confidentiality.

3.5.2 Student health records may not be released without the written consent from the parent/guardian or the eligible student. This restriction applies to any type of release including written, spoken, or electronic transfer of student health information.

3.5.3 In certain incidents, non-consensual disclosure of student health records may be required in the following instances, but not limited to:

- 3.5.3.1 suspicion of child abuse
- 3.5.3.2 suspicion of self-harming behavior or suicide
- 3.5.3.3 to warn of possible harm to other persons
- 3.5.3.4 subpoena or court order

3.5.4 Disclosure of student health records shall be justified when it serves the best interests of the student or the general public.
