

Rubrics for Assessing Academic Researches

Criteria	minimum point (0)	maximum points	Score
I. Background (45 points)			
a. Rationale (5 points)	Only general background was elaborated (1 points)	Specific background of the research was elaborated focusing on the specific problems Current solutions are not able to establish gaps to be bridged by the present study. No data were presented (3 points)	Specific background of the research was elaborated focusing on the specific problems Current solutions and gaps to be bridged by the present study With proper citations of current data (5 points)
b. Operational Framework (10 points)	concept is clear variables are present (4 points)	concept is clear variables are present indicators are present (7 points)	concept is clear variables are present indicators are present definitions are clear (10 points)
c. Review of Related Literature and Studies (10 points)	Very limited review of literature was presented. No theories and principles were presented. (4 points)	Sufficient related literature and studies were presented but not synthesized in a systematic manner. (7 points)	Comprehensive review of existing related literature and studies was presented and synthesized in order to establish the need for the study. Theories and principles were included to add rigor. (10 points)

d. Significance in the PSHS System (10 points)	Limited significance of the proposal (4 points)	Proposal is aligned with the PSHS System Research Priorities and Strands and can be beneficial to future policies and programs in a campus-wide level. (7 points)		Proposal is aligned with the PSHS System Research Priorities and Strands and can be beneficial to future policies and programs in a system-wide level. (10 points)		
e. Objectives (5 points)	Objectives are present but not clear (1 points)	Objectives are present, clear, and well-phrased (3 points)		Objectives are present, clear, and well-phrased characterized by the following: S - specific M - measurable A -attainable R - realistic T - time-bound (5 points)		
f. Research Questions (5 points)	General and specific research questions were enumerated with only 1 of the 5 elements: Feasible, Interesting, Novel, Ethical and Relevant. (1 points)	General and specific research questions were enumerated with only 2 of the 5 elements: Feasible, Interesting, Novel, Ethical and Relevant. (2 points)	General and specific research questions were enumerated with only 3 of the 5 elements: Feasible, Interesting, Novel, Ethical and Relevant. (3 points)	General and specific research questions were enumerated with only 4 of the 5 elements: Feasible, Interesting, Novel, Ethical and Relevant (4 points)	General and specific research questions were enumerated with all of the 5 elements: Feasible, Interesting, Novel, Ethical and Relevant. (5 points)	

II. Research Methodology (40 points)

a. Data Gathering procedure and Tools (20 points)	Generic procedures were presented with limited systematic grounding. (7 points)	Procedures were presented but generic. One to one correspondence with the problems was not completely observed. (15 points)	Detailed procedures on how to obtain data were presented. The methodologies presented were aligned to the research questions. Instruments for gathering data were also presented and all are appropriate to the study. (20 points)	
b. Data Analysis Plan (20 points)	Limited general presentation on how to analyze data was presented. (7 points)	Methods are appropriate. Techniques on how to analyze data were presented, both for qualitative and quantitative data. Tools and software were enumerated. Not organized in a one to one correspondence. (15 points)	All methods presented are appropriate to the problems of the study. Techniques on how to analyze data were presented, both for qualitative and quantitative data. Tools and software were enumerated. One to one correspondence on problem, method and data analysis technique was observed. (20 points)	

III. Timetable/ Gantt Chart (5 points)	The timetable provides general activities with no details of the tasks. (1 point)	The activities are enumerated but limited details on the specific tasks and time frames. (3 points)	Detailed presentation of all the activities and time frame were presented for the whole duration of the research. Activities and schedules are: realistic, accurate and efficient. (5 points)	
IV. Financial Plans/ Cost Estimates (5 points)	Only general costing was presented without detailed breakdown. (1 point)	Limited details on the expenses and costing. Less emphasis on realistic and reasonable. (3 points)	The breakdown of expenses and resources are detailed together with the proper costing. The expenses are realistic and reasonable. (5 points)	

V. Action/ Re-entry Plan (5 points)	Only general description/ overview about the action plan was provided. (2 points)	The Action Plan/ Re-entry Plan provides activities/ programs with only 2 of the following characteristics: clear, logical, detailed, significant and accurate. (3 points)	The Action Plan/ Re- entry Plan provides activities/ programs with only 3 of the following characteristics: clear, logical, detailed, significant and accurate. Limited emphasis on the impact of the results in the PSHS System. (4 points)	The Action Plan/ Re-entry Plan provides activities/ programs with all the following characteristics: clear, logical, detailed, significant and accurate. The plan includes areas in the PSHS Academic Research Agenda that can be improved/ addressed through the research. (5 points)	
Total : 100 Points
